Looking for a highly rated dentist in Highbury, North London? We're welcoming new patients and are open six days a week, including Saturdays.

"I can't believe I've only just discovered this clinic! I truly wish I had found them much earlier. I left feeling so happy, knowing I've finally found my dentist in London."

Camila G Bejarano

Dental Implants in Highbury

Missing teeth can affect your confidence as well as your ability to eat and speak comfortably. [Dental implants](#) offer a long-term way to replace missing teeth by providing an artificial tooth root that can support a crown, bridge or denture.

At Blue Pearl Dental Care, implant treatment is carefully planned around your individual oral health and treatment goals. Where appropriate, we use [CBCT 3D scanning](#) to provide detailed images of the jaw and surrounding structures.

We also offer All-on-4 dental implants for suitable patients who need to replace a complete arch of teeth. This approach uses four strategically positioned implants to support a fixed full-arch restoration.

Dental Implant Prices

As a guide, dental implants currently start from £1,410 per tooth, with the supporting implant crowns from £1,380. The total cost will depend on your treatment requirements, as additional procedures may be recommended following your assessment.

An implant consultation gives you the opportunity to discuss your options and receive an individual treatment plan tailored to your needs.

Invisalign in Highbury

For patients looking for [Invisalign](#) in Highbury, Blue Pearl Dental Care offers discreet clear aligner treatment designed to gradually straighten teeth and improve their alignment.

Invisalign aligners are removable and custom-made for your teeth. Depending on your clinical needs, treatment can address concerns including crowding, gaps and certain bite issues.

Invisalign Diamond Provider

Blue Pearl Dental Care is an Invisalign Diamond Provider, reflecting our substantial experience with clear aligner treatment, having completed over 1,000 Invisalign cases. Treatment is led by Practice Principal Dr Jesus Orozco, a highly experienced Invisalign provider with extensive expertise in orthodontics and restorative dentistry.

We use iTero digital scanning technology to create a detailed 3D model of your teeth. This can be used to plan treatment and produce a digital simulation, helping you visualise your potential smile before you begin. The digital process also removes the need for traditional impression materials.

Invisalign Prices

Our current Invisalign fees include:

- Invisalign Express from £1,950
- Invisalign Lite from £2,950
- Invisalign Comprehensive from £3,600

Your dentist will assess your teeth and bite before confirming which option is appropriate and providing your personalised treatment plan.

Getting to Blue Pearl Dental Care from Highbury

Our practice is at 126A Seven Sisters Road, London N7 7NS, a convenient location for patients travelling from Highbury and nearby areas.
